

QuoroGel

Natural Bovine Collagen Nano-Silver Gel

AN
INTELLIGENT
WOUND
DRESSING

Enriched with
VITAMIN C

NATURAL BOVINE COLLAGEN
NANO-SILVER GEL

INDICATIONS	<ul style="list-style-type: none">• Pressure injuries stage 1 to stage 4• Venous stasis, diabetic & arterial ulcers• Surgical wounds, traumatic wounds• First and second-degree burns• Grafted wounds and donor sites• Skin tears, abrasions, and lacerations
ADVANTAGES	<ul style="list-style-type: none">• Provides a physiologically favourable micro-environment for rapid wound healing• Vitamin C (L-ascorbic acid that the body can recognize) stimulates collagen synthesis• Nano silver significantly reduces wound surface, gram positive bacteria & bioburden• Supports natural autolysis by rehydrating and softening necrotic tissue and eschar• Encourage autolytic debridement• Easy to apply & deliver native type-i collagen at diverse anatomical locations & skin contours
PRECAUTIONS	<ul style="list-style-type: none">• Do not use if the tube is damaged or open• For external use only
CONTRA-INDICATIONS	Avoid using QuoroGel on patients who are hypersensitive to silver or collagen
WEIGHT	30g

Application Procedure:

- Thoroughly Cleanse the wound with sterile saline solution
- Apply QuoroGel as required to cover the entire wound area
- Cover the wound with secondary protective dressing if required
- Close the cap tightly after use & store in cool and dry place
